

Staffing News

We are really pleased to welcome Mr McGonigle to our staff team as our new caretaker.

Over the next couple of weeks Mr McGonigle will be learning the ropes and taking part in training to support him in his new role, part of this will include crossing patrol training. As soon as this takes place we will be able to have Mr McGonigle on duty with the lolly-pop. I know you will all make him very welcome.

Smoking outside school gates

Please can we politely ask that parents dropping, collecting or waiting outside our school not smoke. Although this is off school grounds it doesn't send the correct message to our children as they arrive or leave school.

Thank you for supporting us with this.

Medication

If your child is requiring medication to be administered through the course of the day please make sure you have met with Ms Hamon and completed the permission form. All medication **must** be handed into the office at the start of the day.

Vitamins and other *holistic* medication should be given at home.

Thank you for your support with this.
