St Luke's School

School website = **www.stluke.sch.je** Facebook = St Luke's School Jersey

Dear Parents,

We now are in that strange time of year where we are starting to prepare the final elements of the curriculum while also organising our transition arrangements to ensure that all children are fully supported in the move to their new class. This process includes the 2 transition days when the Yr6 children go to their new secondary school and the children in Nursery to Yr5 have 2 days in their new year groups:

Thursday 4th July and Friday 5th July.

Sports day Yr2—Yr6

Friday 28th June
12:45 - 3pm
FB Fields

Children come to school in their PE kit with a sun hat & sun cream already applied.

We will have lunch at school and then make our way to FB fields.

Children are collected from FB.

After school club children will be transported back to school.

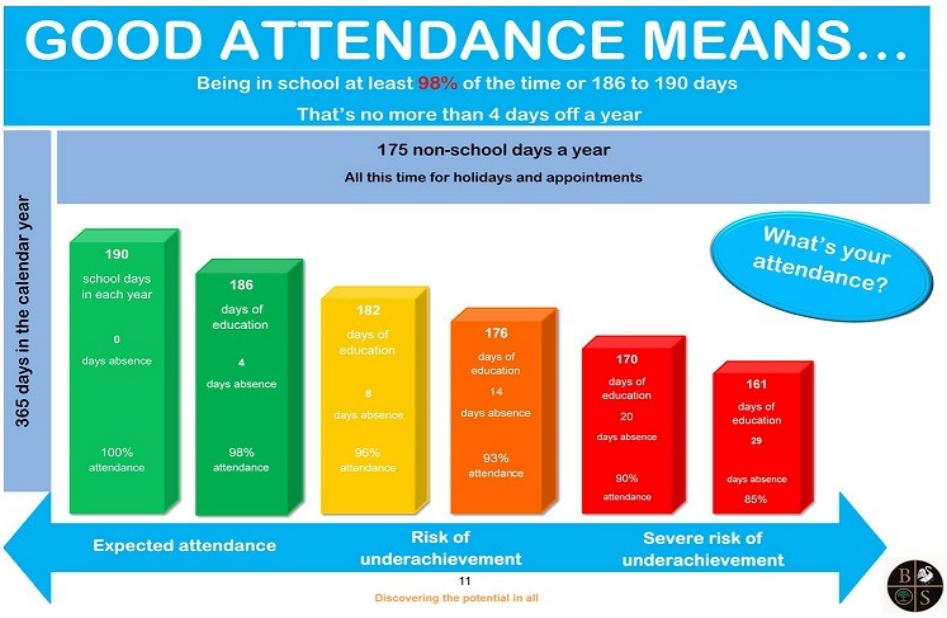
School Review

As you will be aware, last week we were joined in school by a School Review Team to analyse our current provision and offer recommendations to support us moving forwards. They are currently in the process of writing a report based on their visit which will be published and shared with you before we break up for the summer holidays.

The verbal feedback we have received has been very positive, with many areas being described as exceptional and a large proportion as strengths to be celebrated. We were really pleased that the team agreed with our suggested next steps which will form our 2024-2025 School Improvement Plan. We look forward to sharing this report with you in due course.

Yr6 Leavers Assembly

Thursday 18th July
1:45pm - 3pm



Sun Safe!

As part of our ongoing Sun Safe work we have returned the children's Suncream dispenser to the top playground. We are reminding the children how to use the dispenser (without wasting the sun cream) and allowing the children and yourselves to access the free sun cream.
