

Medication in School

Please can we remind everyone about our Medication in School policy (full policy is available in the Policies section on our school website (www.stluke.sch.je)).

Please note that requests for the administration of Calpol or Nurofen will only be considered for pain relief (for example to support a child with a fracture or sprain). If a child requires this type of medication for other reasons (for example to reduce a fever or temperature) school will question if the child is fit to be in school.

Leave requests

Please can we remind parents/carers that requests to take children out of school for holidays/days off are only ever approved in extra special circumstances. The School attendance policy is available on the school website (in the school policy section). In our regular Education Welfare meetings with the Education Department all leave approvals are scrutinised with the school held to account for all decisions to approve.
